

Advanced Benefits Advisors

Workers' Compensation

Managing worksite safety and the cost of your coverage

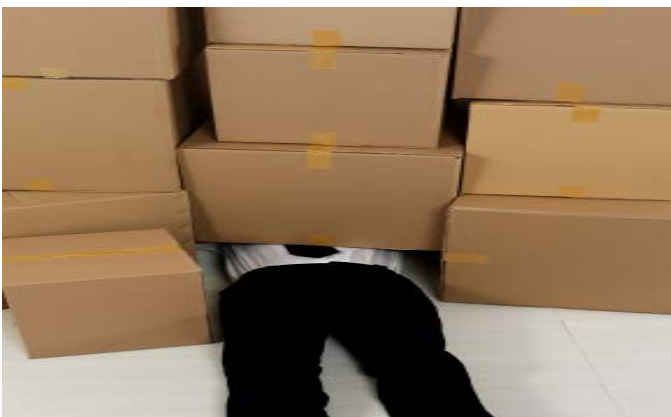

All employers are required to carry Workers' Compensation insurance to cover medical expenses and lost wages in the event of a work related injury or illness.

Even from the same insurance carrier, premiums can vary widely depending on how your policy is set up, how the risks are analyzed and how the policy is underwritten.

The knowledge and experience of your broker can make a significant difference in the value received for your premium dollars.

Advanced Benefits Advisors through CoWest Insurance Consultants will analyze your Workers' Compensation situation and utilize a variety of techniques to secure the best rate for your company and your risk.

Ongoing risk management and safety programs can help you reduce your costs now and in the future.

- Audits
